Stereo & Immersive Media

Vol. 6 No. 1

Publication: 29th December 2022

The International Journal on Stereo & Immersive Media (IJSIM) is an annual open-access and peer-reviewed journal published by the Early Visual Media Lab - Cicant, at Lusófona University, Portugal. IJSIM aims to reflect on the emergence of our progressively immersive media culture with a historical, critical and contemporary perspective. To address this 'immersive media culture', IJSIM focuses both on state-of-the-art technologies and on historical and archaeological sound and visual media that once sought to expand our sensory experiences. In 2022, IJSIM was recognized for its organization, consistency of the published content and relevance for the academic and professional audiences at the international level, by being accepted for indexation in the Scopus database.
